MUHAMMAD ABID MAQBOOL

Dubai, UAE
Mobile: +971 56 5917516
E-Mail: abidmaqbool20@gmail.com
LinkedIn: https://www.linkedin.com/in/m-abid-maqbool-680b5a86/
Gender: Male | **Nationality:** Pakistani

KEY SKILLS

Functional Skills:

- Full Stack Development
- Agile Methodology
- Team Leadership
- Project Management
- Database Design & Management
- DevOps & Cloud Services (AWS, Docker)
- API Development & Integration
- Responsive Web Design
- Problem Solving & Innovation
- Code Review & Quality Assurance
- Continuous Integration/Continuous Deployment (CI/CD)
- Microservices Architecture
- Secure Coding Practices
- Cross-functional Collaboration

Technical Skills:

- **Programming Languages & Frameworks**
  - **Python:** NumPy, Scikit-learn, TensorFlow, and Keras.
  - **Machine Learning Algorithms**
  - **PHP**: Laravel, CodeIgniter
  - **NodeJS**: Nest JS, Express JS
  - **JavaScript**: Vue JS, jQuery, Vuetify, Prime Vue
  - **CSS**: Bootstrap
  - **HTML**

- **Database Management & Design**
  - **Relational Databases**: MSSQL, Oracle, MySQL
  - **Database Technologies**: Database Design, Microservices

- **DevOps & Cloud Services**
  - **Containerization:** Docker
  - **Cloud Computing:** AWS, S3
  - **Version Control:** Git, GitHub, BitBucket

- **Web Development Techniques**
  - **Frontend Development**: Responsive Designs, CSS, HTML, JavaScript
  - **Backend Development**: PHP, Laravel, Node.js (implied by use of Express.js, if applicable)
  - **APIs**: API Development, API Integrations, GraphQL, Websockets

PROFILE SUMMARY

- Seasoned Full Stack Developer with over 9 years of comprehensive experience as a Full Stack Developer, proficient in both front-end and back-end development technologies including Laravel, Vue.js, PHP, JavaScript, and MySQL
- Demonstrated leadership capabilities in overseeing development teams, managing project timelines, and delivering software projects from inception to deployment, emphasizing Agile methodologies
- Strong project management skills with a proven track record of implementing efficient development strategies, leading to the successful completion of diverse software projects
- Expertise in database design and management with hands-on experience in MSSQL, Oracle, and MySQL, ensuring data integrity and optimizing performance
- Skilled in DevOps practices and cloud services, including Docker and AWS, facilitating streamlined deployment processes and efficient infrastructure management
- Adept at API development and integration, enhancing application functionality and interconnectivity between different software systems
- Versatile problem-solving abilities and an innovative approach to addressing challenges, with a focus on continuous improvement and adopting new technologies
- Excellent communication and teamwork skills, capable of working effectively in multi-disciplinary teams and interacting with stakeholders across various levels

EXPERIENCE

Transport Systems Group, Dubai , UAE | Full Stack Software Developer | Oct 2023 – Present

- Leading the development and maintenance of web applications and services to meet business requirements and user needs
- Collaborating with stakeholders to analyze requirements and define project goals, ensuring alignment with business objectives
- Coordinating with a team of developers, managing task assignments, and overseeing project progress to ensure timely delivery
- Designing and managing databases, optimizing performance, and ensuring data integrity and security
- Implementing Agile methodology to streamline project management processes, improve team collaboration, and enhance product quality
- Deploying code and managing application environments using Git and Docker, ensuring seamless deployment and scalability
- Developing frontend interfaces using Vue.js and Prime Vue, focusing on user experience and responsive design
- Crafting backend systems with Laravel, ensuring robustness, security, and high performance
- Integrating APIs to extend application functionalities and improve data exchange between systems
- Proactively identifying and fixing bugs, conducting code reviews, and maintaining high standards of code quality and application performance

- **Project Management & Collaboration Tools**
  - **Agile Methodology**
  - **Task Management:** Asana, JIRA
  - **Code Review & Quality Assurance:** Testing & Debugging

- **Other Technical Skills**
  - **Search Engine Optimization (SEO)**
  - **Customer Relationship Management (CRM) Systems**
  - **Networking**: Curl

EDUCATION

Masters In Computer Science | Riphah International University | 2018 – 2020

Bachelor of Science: Information Technology | University of Education | 2013 – 2015

LANGUAGES

- English – Proficient
- Urdu – Native

Annexure..docx

CMH Lahore Medical College & IOD, Lahore, Pakistan | Team Lead Software Developer | Aug 2019 – Sep 2023

- ❖ Managed and executed multiple software development projects, including a hospital management system and a learning management system, from conception through deployment
- ❖ Led a team of developers, fostering a collaborative environment, and guiding team members towards project milestones
- ❖ Engaged with end-users to gather requirements, ensuring developed solutions met user needs and improved overall system usability
- ❖ Oversaw the project lifecycle, utilizing Agile practices to meet deadlines and adapt to changing requirements efficiently
- ❖ Designed and implemented database structures, enhancing data storage, retrieval, and security practices
- ❖ Utilized Laravel and Vue.js to develop scalable and maintainable code, contributing to both frontend and backend development efforts
- ❖ Conducted code reviews and led debugging efforts to maintain code quality and application stability
- ❖ Coordinated with cross-functional teams to integrate external systems and technologies, enhancing project outcomes

Construction Solutions, Lahore, Pakistan / New York, USA | Web Application Developer | Oct 2015 – Jul 2019

- ❖ Developed and maintained custom web applications, translating client requirements into functional and user-friendly solutions
- ❖ Collaborated closely with project stakeholders, including end-users and senior developers, to define project scope and deliverables
- ❖ Contributed to both frontend and backend development, utilizing technologies such as CodeIgniter and JavaScript to create responsive designs
- ❖ Implemented API development and integration, enhancing application connectivity and functionality
- ❖ Participated in the full software development lifecycle, applying best practices in coding, testing, and deployment
- ❖ Identified and resolved software bugs, ensuring applications ran smoothly and efficiently
- ❖ Assisted in the development of project documentation, including technical specifications and user manuals

Directory92, Lahore, Pakistan | Web Developer Intern | Jan 2015 – Sep 2015

- ❖ Supported the development of website backends and frontends, gaining foundational skills in web development
- ❖ Worked on a branded SMS marketing application, contributing to backend development and integrating frontends for enhanced user engagement
- ❖ Collaborated with development teams on projects for high-profile clients such as NIKON, LOWEPRO, and OLYMPUS, learning industry standards and client-focused development
- ❖ Engaged in testing and debugging activities, enhancing code quality and application performance
- ❖ Acquired hands-on experience with PHP, CSS, and HTML, laying the groundwork for a career in full-stack development
